

## TOPIC BRAIN DUMP

For each of the topics identified to be on the final you must “brain dump” as much information as you can about the topic in ONE MINUTE PER TOPIC. Set a timer!!! Run out of things to write before the minute is up? Flip through that section of your notebook and then try the one minute brain dump again. Remember – this is a review technique that is designed to help you prepare for the final! Please take it seriously and give it an honest try. Just copying things down turns it into a waste of time. Do it right! ☺

**Please make sure to adequately identify where each topic's brain dump starts. Use boxes or highlighters, etc.**
